

AFRICAN BALLOONING SAFARI

1 DAY, IN UNASSAILABLE STYLE

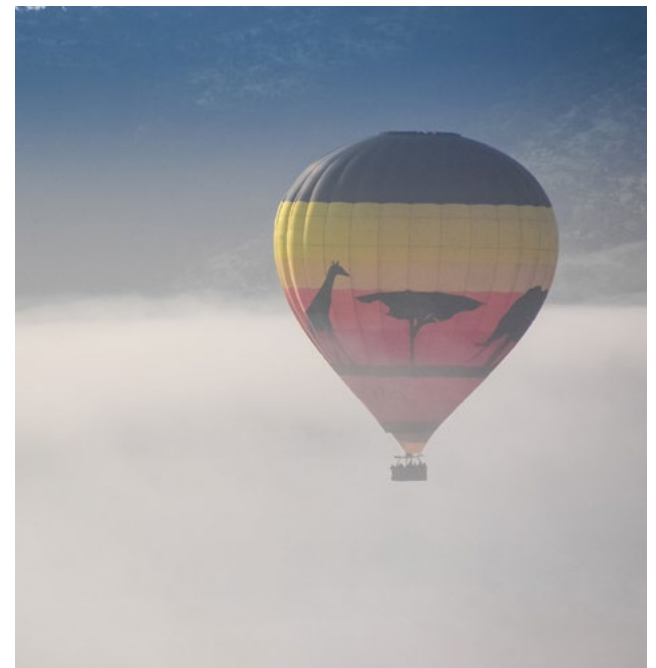

THERE IS NOTHING ELSE QUITE LIKE IT.

The proud roar of the burner in preparation of the gentlest of lift-offs. The utter silence while you drift gently above the African landscape. The unmatched vantage point to spot the lives of the majestic creatures beneath you.

It's an early start – your personal Golden Moon guide will collect you before sunrise (the exact time to be determined prior to flight) and transport you to the designated take-off location in the Hartbeespoort Dam and Magaliesberg area. Concern yourself only with the incredible sights and sensations, as the guide will take care of all paperwork and permits. You will spend about one hour aloft, but will require three to five hours from check-in to conclusion of your flight, plus allow for transit time to and from your hotel.

ABOUT BILL HARROP AND HIS BALLOONING SAFARIS

All arrangements of your unforgettable flight will be in the hands of legendary Bill Harrop and his family. You will be greeted with a warm welcome plus a hot drink and biscuits as you prepare for your flight at the well-appointed Clubhouse Pavillion. Lift-off in the hands of an experienced professional ballooning pilot takes place as the African sun casts its golden light over the landscape.

Comfortable and warm layers of clothing are advisable for the early morning flights, but the temperature soon rises. Wear comfortable shoes (no heels or sandals), and consider a hat for the latter half of the flight.

“If you’re going to do it, do it in unassailable style. It’s sunrise. The silence is only punctuated by the occasional blast of the powerful burners and the faint call of a bird or animal far beneath. The thrill is indescribable. Picture yourself sipping champagne as you hover gently above the treetops, or soar high above the mountain peaks. After landing, savour a delectable champagne breakfast at our new, traditional, exquisite and beautifully appointed Clubhouse Pavilion and Restaurant where you will be filled with the warmest of memories.”

Back on the ground, but your mind still enjoying the sights, sounds and sensations of the flight, your Golden Moon guide will drive you the short distance to the Lion Park. Here you are faced with the opportunity to savour a guided trip in a safari vehicle and learn about the indigenous life of Africa. Spot the array of antelope species, hyena, cheetah and any number of the park's lion prides. Be brave and walk through the World of Cubs and face the chance to have a hands-on encounter with a lion cub. Such golden photo opportunities, and memories fit for a lifetime. Conclude your tour with a moment on a dedicated feeding platform where you have the chance to touch and hand-feed giraffes at eye level.

So many exciting memories to mull over as your guide drives you back to your hotel. Africa, what a great continent!
