HARTBEEAPOORT DAM

The tour commences with a driveby of the Hartbeespoort Dam. Initial construction of the dam started in 1895 and stretched over many years before it was finally completed in 1925. The 205-million-cubic-metre dam is fed by the Magalies- and Crocodile River. The dam wall is the only example of a Roman Triumphal Arch in South Africa. ,followed by an exploratory stroll through the rich Chameleon Village Fleamarket.

CHAMELEON VILLAGE FLEAMARKET AND LESEDI CULTURAL VILLAGE

After a warm traditional welcoming you can explore the vibrant and varied cultures of these two incredible venues. Interact with the vendors and learn about their remarkable traditions, art and cultures.

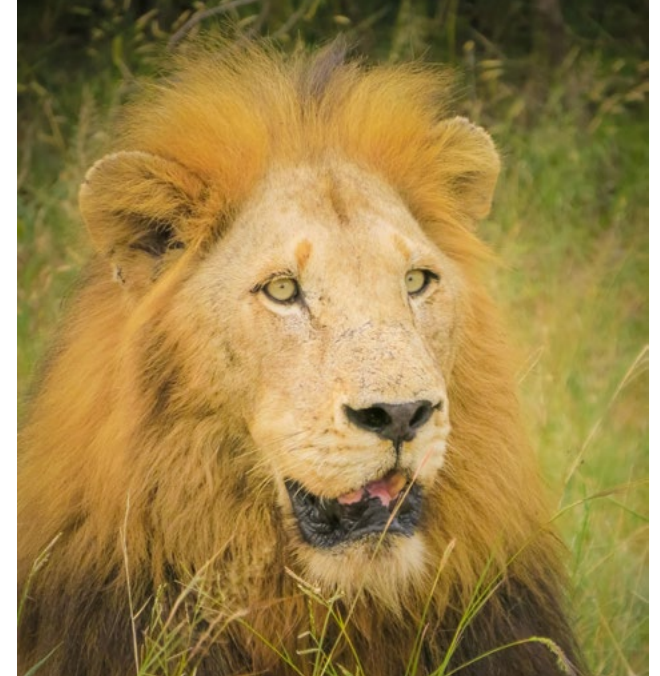

Browse the craft market and marvel at the Ndebele murals that decorate the buildings. Take in the theatre presentation which reveal the rich history and origins of the African people.

So much more! Bask in the stories of the Zulu, Xhosa, Basotho, Ndebele and Pedi homesteads during a guided tour. Refresh yourself with some cold drinks before lapping up a display of traditional dance – a treat for all senses. Round off the display with a Pan-African feast served in the Nyama Choma Restaurant.

LION PARK

Next travel the short distance to the Lion Park. Here you are faced with the opportunity to savour a guided trip in a safari vehicle and learn about the indigenous life of Africa. Spot the array of antelope species, hyena, cheetah and any number of the park's lion prides. Be brave and walk through the World of Cubs and face the chance to have a hands-on encounter with a lion cub. Such golden photo opportunities, and memories fit for a lifetime. Conclude your tour with a moment on a dedicated feeding platform where you have the chance to touch and hand-feed giraffes at eye level. What a way to spend a day in Africa!
